## Education

### Institute of engineering and management

Bachelor of computer science and engineering

August 2023 - June 2027

Kolkata, West Bengal, India

## Experience

### Palo alto networks

August 2024 – September 2024

CYBERSECURITY VIRTUAL INTERNSHIP

Remote

- Gained hands-on experience with Palo Alto Networks' cybersecurity tools, focusing on threat detection, incident response, and network security management.
- Learned about the Zero Trust model, cloud security, and strategies for securing enterprise systems.

## Projects

### Adography / Java Spring Boot, React Js, MySQL

- An interface which will give an option to search on the basis of fullName of regex in Ad, AdGroup and Campaign
- The search option allows the user to see all the matching results related to Ad, AdGroup and Campaign in a paginated way. On selection of any Ad, AdGroup, Campaign, the user is able to see further details.

### Finance management website /JavaScript, NodeJS, ReactJS and Express

- Developed a full-stack Personal Finance Manager using React and Node.js with JWT authentication and RESTful APIs.
- Implemented dynamic budget tracking, state management with React Context API, and styled the UI using styled-components.

## Achievements

- 5 star coder of c++ at HackerRank.
- Solve 200 question on Leetcode
- Solved more than 2000+ problems across platforms.
